

- Material: Alpacca (CuNiZn) - C7251R-H (64Cu-18Ni-18Zn) or similar
- Raw finish
- Thickness: 0.5 mm
- Bending method: Bending is defined by scoring (milling/notching) lines indicated in the drawing (eg. \*.PDF)
- Scoring locations: as shown in the drawing (e.g. at x = 18.0 mm and y = 91.5 mm in the flat pattern).
- Final external dimensions after bending: 92.5 mm × 74.0 mm
